
Peeping Tom - unlawful picture taking

Posted by great1 - 2008/05/13 22:04

Client is a victim of someone taking pictures of her while she is in her home. The photographer was using a high zoom camera/video camera. My client's images are on the internet. What is the best way to have these images removed? To whom should a complaint be filed? State prosecutor? Website administrators will not say who posted the pictures.

You should start with the local police, this was a blatant violation of the law. The police will shift it to a detective and the county prosecutor will handle from there on.
