
Entering Undergraduate Studies--LSAT

Posted by with_teeth100 - 2007/05/22 23:12

Alright, so I'm fixing to be an incoming Freshman at my undergraduate university. Any comments on how soon I need to start studying for the LSAT?

You do not have to worry about the LSAT until the semester before you become a senior. Then the timing becomes very important. I noticed that on the main page of this site there is an article that explains the test and timelines for taking the test. Give it a read, it will probably answer all your questions. But, you still have some time to worry about the LSAT. Good luck.

:)
