Hi everybody,

Since I am a new to Isat prep I do need your advice. Now I go to one of the universities in Virginia, basically I am an international student and paying my tuition fee for just keeping my status. Since I can't afford to pay for both my current university and a prep course I am wondering if is there any Isat prep course which gives i-20 to int'l students. If anyone knows share it with me plz. I'm planning to take Isat exam in summer.

I'm not aware of any LSAT prep course that gives free services to international students. There are coupon codes on this site for the Princeton Review.
